## **Wood Stone Expanding Manufacturing Operations**

Bellingham, WA, November 1, 2006 – Wood Stone Corporation is proud to announce the construction of a new 57,500 foot building in Bellingham, Washington. This new structure is being built adjacent to Wood Stone's current 60,000 square foot headquarters, and will more than double their total manufacturing space.

"We are excited by the possibilities that this new building will offer Wood Stone, our employees and our customers" said President Keith R. Carpenter. "Market demand for our current line of products has never been stronger and we anticipate that this new space will allow us to not only expand this production, but also enable our continued growth with new product lines".

The new facility will be used for the assembly and storage of Wood Stone's products and will also house a new shipping and receiving area. The building should be completed by the end of this year and fully functional shortly afterwards.

The Wood Stone Corporation, based in Bellingham, WA, is the worlds leading supplier of stone hearth ovens, tandoors, rotisseries and broilers. Wood Stone equipment is featured in over 6,000 locations in 60 plus countries.
